of Orthopaedic Care

NAON Orthopaedic Nursing Review Course

This program is an excellent review for those planning to take the Orthopaedic Nurses Certification Board Exam and those wanting to enhance their orthopaedic knowledge base.

Course Objectives

1. Employ appropriate management tactics to address various orthopaedic diseases and disorders.
2. Formulate individualized, holistic care strategies for the orthopaedic patient.
3. Differentiate methods to prevent, lessen, or treat complications in the orthopaedic population.
4. Validate techniques for safe mobilization with assistive devices as appropriate for the orthopaedic patient.
5. Evaluate specific education approaches to promote self-care and maximum independent mobility for the orthopaedic patient.

Our Speaker

Kathy Smith, RN, BSN, ONC has worked in the orthopaedic specialty since 1997. Her orthopaedic career has taken her from a staff nurse, to positions as a nursing unit supervisor, orthopedic nurse clinician, and currently orthopedic nurse manager. As a certified orthopedic nurse, she is active in her local chapter of NAON, having held various officer positions including secretary, president elect and president. She is anxious to help you grow in your knowledge and care of orthopedic patients as we distinguish the specialty of orthopedics.

The course is a one day event offering 7.0 contact hours for each participant who attends the entire course and completes a course evaluation. These contact hours are Category A as designated by the Orthopaedic Nurses Certification Board.

The National Association of Orthopaedic Nurses (NAON) is accredited as a provider of continuing education by the American Nurses Credentialing Center Commission on Accreditation (ANCC-COA).

The Corporate Faculty of the Division of Corporate Education look forward to meeting you and assisting you in your future educational endeavors.
